

ÇORLU CULTURE AND ART ASSOCIATION

Photograph Competition – 2012. Terms and Specifications

Theme:Immigration

All alive(s) on the earth are in continuous motion regardless of the environment they belong and survive.

This is both the necessity and consequence of their efforts to explore and improve the conditions in order to remain alive in short and longer terms.

Immigrations affect the geography of earth in various aspects. Political, military, economic, ecological, ethnological...

Immigrations bring different cultures and civilizations together.

Immigrations sometimes may be the causes of wars while they also help development of alliances as well as hostilities.

Immigration in essence; is full of freightment, hope, emotional misses and pities.

It is either the emotional misses or the exhaustion of hopes which trigger “return”...

Mankind has illustrated and immortalized evolution of its behaviours through the means of art.

We are looking forward in the foregoing context; to see the pieces of art in photography.
